SCAVENGER HUNT GUIDE

1. Make sure your GPS is on and your photos are georeferenced
2. Make observations!
   a. Take a photo of the organism with the app camera
   b. View suggestions to choose what species you think you saw
   c. If unsure, you can leave it blank!
   d. Type the number from the scavenger hunt into the Notes
   e. Share!
3. Ensure your observations sync so that we receive them!

You do not have to be an expert to participate in citizen science projects like this one!
Take photos, compare to different species through the app, and learn as you go!
