## BLACKWATER CONSERVATION AREA

BREC

### DESCRIPTION

**B**lackwater Conservation Area opened in 2002 and is one of BREC's renowned conservation areas. The Comite River traverses along the parks' western edge. This naturalized recreational site offers two large fishing lakes, nature trails and pavilion with restrooms. Recent additions include a visitor clean up station,

ADA accessible concrete pathway leading to an accessible fishing pier with benches and Cypress Trees were planted. BREC continues to preserve the local habitat through invasive species removal and native tree plantings with the help of volunteers and local organizations.

BLACKWATER CONSERVATION AREA

### PROJECT DATE

2006	Visitor Clean up Station
2006	Accessible Fishing Pier & Walks
02/23/2006	Parking Area Improvements
01/23/2007	Exotic Removal & Plantings
2014	Interpretive Signage

### PROJECT COST

\$3,000	Visitor Clean up Station
\$45,000	Accessible Fishing Pier & Walks
\$6,000	Parking Area Improvements
\$10,000	Exotic Removal & Plantings

**DESCRIPTION**

**B**luebonnet Swamp Nature Center is a 103 acre facility dedicated to conservation, education, recreation and tourism. It houses an award-winning, 9500-square-foot building filled with live animal exhibits, photographs and natural artifacts. To expand programming at the facility additional land adjacent to the site was procured in 2009. The existing building was repurposed as BBS Education and Conference Center. The facility contains multi-

purpose rooms, an assembly area, an area for overnight and extended stay educational programs, ample storage for art and educational supplies, a kitchen, and offices. The interior classroom and work space was coordinated with an exterior classroom/work area. The building is being carefully integrated with the overall Bluebonnet Swamp Nature Center Master Plan.

**PROJECT DATE**

- 2009 Land Acquisition for Education Building
- 2012-2013 Utility Conversion—Overhead to Underground
- 2012-2014 Education Building Renovations
- Underway Site Circulation Master Plan

**PROJECT COST**

- \$1,050,000 Land Acquisition for Education Building
- \$110,000 Utility Conversion
- \$10,000 Front Deck Repairs
- \$220,000 Education Building Construction Drawings
- \$535,000 Education Building Renovations

## COMITE RIVER PARK

BREC

### DESCRIPTION

Comite River Park located south of Hooper Road near Blackwater Conservation Area is also a conservation park. The naturalized recreational site adjacent to the Comite River features unique hilly terrain which makes a popular spot for riders to traverse 5 miles of mountain bike trails. Recent additions include a bicycle

cleaning station, ADA accessible pavilion, new trail signage, and improved parking area. BREC continues to preserve the local habitat through invasive species removal and native tree plantings with the help of volunteers and local organizations.

COMITE RIVER PARK

**DESCRIPTION**

**B**REC currently has 8 parks which are set aside for conservation purposes. Of those include Bluebonnet Swamp Nature Center which is the hub of environmental education within the parish and the remaining seven parks are considered Satellite Conservation Areas. These include Blackwater Conservation Area, Burbank Conservation Area, Cohn Nature Preserve, Doyle's Bayou, Frenchtown Conser-

vation Area, Kendalwood and S. Harrell's Ferry Road Park. Each of these parks were acquired for their high ecological value and the unique or rare habitats they contain. These natural areas provide many benefits beyond public enjoyment such as improving air quality, preserving habitat, reducing noise pollution, flooding, green house gases and energy cost.

BREC

## PROJECT SITE PLAN

## FRENCHTOWN ROAD CONSERVATION AREA

BREC

### DESCRIPTION

**F**renchtown Road Conservation Area or "The Land Between The Rivers" is the largest Park and the largest Conservation Area currently operated by BREC. It is 496 acres of Bottomland Hardwood Forest including Small Stream Forest and Spruce Pine Hardwood-Flatwood Forest habitat; both of which are locally and globally ranked as rare or imperiled habitats. The property is home to a diverse spread of flora and fauna including several species of state conservation concern and

countless migratory birds. Frenchtown currently has over 3 miles of trails which wind around the north and central parts of the park including access to the Amite River Beach, several Amite River overlooks and access to countless Cypress-Tupelo sloughs. Basic signage directs visitors around the park's hiking trails. More trails and amenities will be developed when the Park Master Plan is finalized.

### PROJECT DATE

December 2009	Land Acquisition
2013	New Parking Area & Trailhead
10/22/2013	New Hiking Trails Opened
Underway	Master Plan

### PROJECT COST

\$1,500,0,000	Land Acquisition
\$10,000	Site Assessment
\$30,000	Trailhead & Nature Trails

## PROJECT SITE PLAN

### Trail Information:

#### ■ Railroad Trail

From parking lot the trail follows the railroad track and forest edge to the Amite River Beach. Magnolia Beech Forest, Hardwood Forest and Amite River Overlook Loops are accessible from this trail. Distance is 0.7 miles one way.

#### ■ Magnolia Beech Forest Loop

Accessed from the Railroad Trail. Short loop through an upland magnolia beech forest. Winds through this unique habitat and loops back to the Railroad Trail. Loop is 0.1 miles.

#### ■ Hardwood Forest Loop

Accessed from the Railroad Trail. Winds through mixed hardwood forest and cypress-tupelo sloughs. Loops around the interior of the park and winds through the woods on the west side of Frenchtown Road to complete the loop. Amite River Overlook is accessible from this trail. Loop is 1.9 miles.

#### ■ Amite River Overlook Loop

Accessed from the Railroad Trail. Winds through small stream forest along the Amite River, circles back to the Hardwood Forest Trail to complete the loop. Some bridge crossings required. Loop is 0.6 miles.

#### ■ Giant Bamboo Trail

Starts on the west side of Frenchtown Road opposite the parking lot. Travels through a magnificent giant bamboo forest. Hardwood Forest Loop is accessible from this trail. No Parking at end of the road. Only partially cleared and developed. Distance is 0.7 miles one way.

#### ★ Amite River Beach

Located at the east end of the Railroad Trail. Fishing is allowed. Louisiana State Regulations apply. Pack out your trash and help us sustain the beach as a fishing resource by limiting your catches. No lifeguard on duty, swim at your own risk.

## NATURE PRESERVE OF THE COHN ARBORETUM

BREC

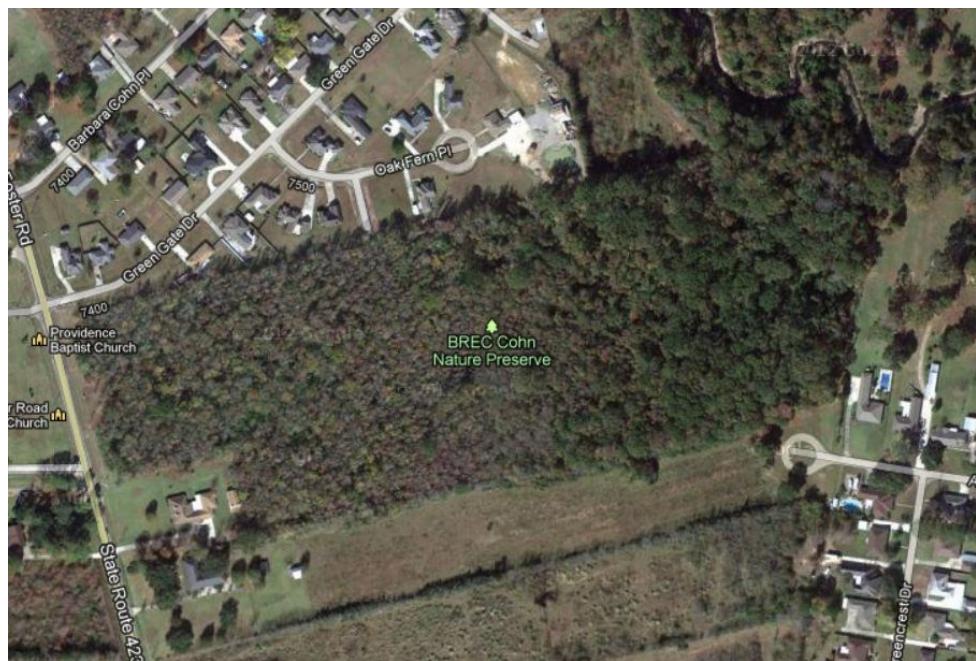

### DESCRIPTION

The 28.5 acres of land is a Nature Preserve that will remain a natural area on Foster Road, south of the Cohn Arboretum. The late Margie Cohn donated the land to be used solely as a part of the

Laurens Henry Cohn, Sr. Memorial Arboretum, devoted and dedicated to the study, fostering and preservation of wildlife, plants and animals.

## TRISTAN AVENUE PARK

BREC

### DESCRIPTION

Tristan Avenue Park is now a Conservation Area. In 2010, the antiquated play equipment was removed to allow the site to return to its natural state. The park's entrance is located at the end of Tristan Avenue in Baker and has a BREC signage, a picnic table, and a small grassy area set on the edge of the woodlands. The 32.6 acre

site features bottomland hardwood forest that is fairly mature with some moderately large magnolia and beech trees that backs up to White's Bayou.
